

# The 16th International Symposium on Origin of Matter and Evolution of Galaxies

## Tuesday 25 October 2022

### Tuesday - Session 2: First Generation Stars and Galactic Chemical Evolution I (10:40-12:10)

-Conveners: Weiping Liu

time	[id] title	presenter
10:40	[69] Direct Measurement of the Astrophysical $\sigma^{19}\text{F}(p,\alpha\gamma)^{16}\text{O}$ Reaction in the Deepest Operational Underground Laboratory	HE, Jian Jun
11:10	[8] Galactic Chemical Evolution with short lived radioisotopes	WEHMEYER, Benjamin
11:30	[31] GalCEM: the Galactic Chemical Evolution of all the isotopes	Dr GJERGO, Eda
11:50	[23] Studying the Luminosity Function of Lyman Alpha Emitters selected behind 17 lensing clusters from from Multi-Unit Spectroscopic Explored (MUSE/VLT) observations	TRAN, Thi Thai
