

The 16th International Symposium on Origin of Matter and Evolution of Galaxies

Tuesday 25 October 2022

Tuesday - Session 3: First Generation Stars and Galactic Chemical Evolution II (13:30-14:40)

-Conveners: Grant Mathews

time	[id] title	presenter
13:30	[70] Galactic chemical evolution of light-to-heavy elements	KOBAYASHI, Chiaki
14:00	[49] Light Element Abundances Constrain Primordial Black Holes in the Critical Collapse Model	CHEN, Chao
14:20	[72] Neutron induced reactions for nuclear astrophysics: an indirect approach	PIZZONE, Rosario Gianluca
